**SOFT
LINE**

BASEL

Description:

Futuristic and fun

The clean lines and the simplicity of the design are striking, but a closer look reveals even more design details that give BASEL a very unique character. The lines of the seat are a fusion of several geometrical shapes that results in the unique shape that is both tight and soft at the same time. The characteristic backrest works as an integrated and discrete armrest and is an advanced 3-dimensional design element despite the minimalistic look.

Year of design: 2017

Design: Busk+Hertzog

busk+hertzog was established in Denmark in 2000 by Flemming Busk and Stephan B. Hertzog, and their successful studio, today located in Lisbon Portugal, has won more than 75 of the most prestigious international design awards, including Red Dot Award - Best of Best, IF Awards and Good Design Awards. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with minimal embellishment, and they often get their inspiration from shapes and lines found in nature.
